

AESTHETIC

To sum up all the arguments, what makes ONDULINE® sheets aesthetic?

- Suitable for a wide variety of roof shapes (curved, ...) because the material is flexible.
- Different profiles (corrugations).
- Different sizing (long/short sheets for different applications).
- Different colours, tiles look 3D and shaded aspects.
- Available matching accessories (same colour for better look).

A strong impact of the location on the design.

Roofing material is first a question of **local culture** (designated material, colour and structure). It is difficult to change the habits and construction methods due to long time traditions, preferences, mindset and pricing.

Different roofing materials coexist everywhere.

Context and market evolutions.

Tiled roofs (clay, concrete, slate) **remain the reference for nicest aesthetic** as it allows for a combination of colours, small elements look and has a historical character.

For years, there has been **an increasing trend towards metal roofing** from box profile (trapez) to tile imitation.

UVPC panels with tile roof imitation are also fastly growing in Asia and Latam.

Finally, **shingles** trend remains stable. Shingles manufacturers develop mixes of colours and shapes to adapt to trends.

A variety of profiles.

In order to keep up with market trends, modernise its look, diversify its offer and ease the installation, **ONDULINE® offers now 4 different profiles:**

1

PROFILE CLASSIC
ONDULINE® CLASSIC
ONDULINE® BASE
ONDURA®

2

PROFILE ONDUVILLA®
ONDUVILLA®
ONDULINE® ZIGANA® /TILE
ONDURA® EDGE

3

PROFILE UNO
ONDULINE EASYFIX®
ONDULINE TILE® / 3D
ONDULINE STILO® / 3D
ONDULINE EASYSTYLE®

4

PROFILE 235
ONDULINE DURO® 235

Watertight

Wind Resistant

Sound absorbing

Lightweight

Fast to install

Easy to install

MORE FAQ ABOUT AESTHETIC

Different sizing.

We offer products for different markets and **different types of application**, from the small annexe to the larger residential/commercial building.

- Tiles and compact elements bring more aesthetic: **less “panel” look** (metal, fiber cement), more tile look.
- Compact elements are **easier to handle, transport and install**.
- Possible **colours effects**: shaded, 3D.

Smaller length: 0,4 m (ONDUVILLA®), 0,57 m (ONDUCASA®), 1 m (ONDULINE EASYLINE®, ONDULINE EASYFIX® COMPACT, ONDURA® HALF SHEET).

Higher length: 2 m (ONDULINE® CLASSIC, ONDULINE® BASE, ONDALUX®, ONDULINE EASYFIX®, ONDULINE EASYSTYLE®, ONDURA® PREMIUM, ONDURA® EDGE, ONDULINE SMART 10/DURO® 235/SX 35, STILO/3D, TILE, MAIS, ZIGANA®/TILE/X-TREME).

Length

Smaller width: 0,76 m (ONDULINE EASYLINE® 8 corrugations), 0,82 m (ONDULINE EASYFIX®/COMPACT, ONDULINE EASYSTYLE®, ONDULINE DURO® SX 35), 0,85 m (BASE), 0,87 m (ONDURA® PREMIUM 9), 0,89 m (ONDURA® EDGE, ZIGANA®/TILE/X-TREME), 0,95 m (ONDULINE® CLASSIC, ONDALUX®, ONDULINE EASYLINE® 10 corrugations, MAIS), 0,96 m (ONDULINE STILO®/3D, ONDULINE TILE®), 0,97 m (ONDULINE® HR, ONDURA® PREMIUM 10/HALF SHEET, SMART 10, ONDUCASA®, TAPUME) and **1,06 m** (ONDULINE DURO® 235).

Higher width: 1,07 m (ONDUVILLA®).

Width

Different colours.

We use 3 different technologies to obtain different colours:

PPHR

PPHR is the standard technology and is available in 8 colours: Red, Black, Brown, Green, Anthracite grey, Grey, Shaded Dark Grey and Kamouflaj.

INTENSE allows for brighter and more durable colours. It is Onduline's exclusivity, available in Intense Red, Intense Black, Intense Green, Intense Brown, Intense Anthracite Grey and Intense Ceramic.

INTENSE

PAINTED

PAINTED is used to maximising colour durability.

Different aspects.

3D LINES

3D LINES gives more depth to the roof, reinforcing the contrasts for a real tile look.

SHADED improves the rendering of the roof with colour gradients creating a visual effect with regard to depth and shadings similar to tiles.

SHADED

MORE FAQ ABOUT AESTHETIC

KAMUFLAJ

KAMUFLAJ allows for a mix of colours for a roof that fits well into its environment.

Available matching accessories.

ONDULINE® roofing sheets and tiles come with a full set of accessories adapted to the kind of application covered: **ridges, verges and valleys** –made of the same material and available in matching colours- **fasteners**, adapted to the roof structures, ventilation pipes and openings.

RIDGE A100
